These measures are designed to rate the nutrition environments of restaurants serving either lunch or dinner. They are not designed to rate specialty shops such as coffee or ice cream shops, unless these shops serve lunch or dinner items (e.g., sandwiches). In addition, there are other establishments that may serve food that fall into an exclusions category (see below) and would not be rated. However, based on your survey purposes, you may decide to set different exclusion criteria.

**Exclusions**
Establishments that are not open to the general public, or those where you have to pay a charge just to enter. Also, establishments where food is not the primary product (e.g., food counters at drugstores).

- schools
- churches
- convalescent homes
- bars, clubs, or places excluding children 18 and under
- movie theatres
- hospitals
- stores not preparing food to order or consume immediately (bakery, dairy store, store that sells coffee beans, etc.)
- food counters within discount/superstores (e.g., Wal-Mart)
- workplace cafeterias

In these protocol instructions, each section of the survey is shown, followed by instructions for completing that section. Refer to the *Restaurant Data Collection Flowchart*, which explains the suggested order for completing the survey components, if you have any questions on the data collection process.

**General Completion Tips**
Remember to follow the tips below to decrease the data cleaning time later.
1. Write legibly.
2. Check your work.
3. Use the correct line/bubble.

**For Those Whose Forms will be Scanned**
The surveys will be scanned on a machine that is very picky, so please remember to do the following:
1. **Darken** your circles once you are sure of the answer.
2. Press down when writing letters or numbers so they are legible and dark.
3. Write your comments and notes on the lines provided.
4. Do not cross through any individual items or sections.
5. Erase any stray marks you make.
Record your Rater ID at the top of the page.

Confirm that the category assigned to the restaurant (sit down-SD, fast casual-FC, fast food-FF, specialty, or other) during the enumeration process is correct and mark the appropriate bubble. See instructions below on restaurant classification.

- If it is incorrect, explain in the “Comments” section of the cover page and alert project coordinator when submitting the form.
- Continue with the assessment, unless it is not a restaurant.

Record the date and start/end times for each data source as you complete the data collection.

Classifying Restaurants:

1. **Sit-down Restaurants category (SD)**
   This category includes traditional sit-down restaurants, and bars and pubs with full menus that are open to all ages.
   a. **Sit-down Restaurant**- Restaurant that offers full table service by wait staff, who take your order at the table.

   Examples:
   - Applebee’s
   - Don Pablo's
   - Golden Corral
   - Hard Rock Cafe
   - International House of Pancakes or IHOP
   - Olive Garden
   - Ruby Tuesday
   - Sizzler - [http://www.sizzler.com/home/home.html](http://www.sizzler.com/home/home.html)
   - ThaiCoon
   - Top Spice
   - Touch of India

b. **Bars/Pubs** – A restaurant that sells a full range of alcoholic beverages, has a full menu and is open to all ages. These are to be
listed under the **Sit-down Restaurants** heading.

Examples:
- Brick Store Pub
- Famous Pub and Sports Palace
- Maggie’s Neighborhood Bar & Grill
- Taco Mac

### 2. Fast Casual Restaurant (FC)
A restaurant that is similar to fast-food in that it does not offer table service, but promises somewhat higher quality of food and atmosphere. ([http://en.wikipedia.org/wiki/List_of_fast_casual_dining_restaurants](http://en.wikipedia.org/wiki/List_of_fast_casual_dining_restaurants)) You may order and pay at a counter. Often food is brought to your table.

Examples:
- Atlanta Bread Company
- Baja Fresh
- Boston Market
- Café Express
- Chipotle Mexican Grill
- Fresh City
- Fuddruckers
- Mama Fu’s
- Moe’s Southwest Grill
- Panera Bread Company
- Pita Palace
- Wingstop

### 3. Fast Food Restaurants category (FF)
This category includes fast food restaurants only. Fast food restaurants are characterized by minimal service and by food that is supplied quickly after ordering. Food purchased may or may not be eaten quickly as well. Food is commonly cooked in bulk in advance and kept hot, or reheated to order.

**Fast Food restaurants usually meet at least one of the following criteria:**

A. A restaurant that is **part of a fast food chain or franchise** (see list) that ships standardized foodstuffs to the individual restaurants from central locations.
B. A restaurant that is **located in a food court**.
C. A restaurant that is limited to **take-out only**.
D. **Lunch trucks, trailers, wagons, etc.**

---

**More on Fast Food:**
Fast food is often highly processed and prepared in an industrial fashion, i.e., with standard ingredients and methodical cooking and production methods. It is served usually in cartons or bags in a rapid manner in order to minimize costs. Fast food outlets often provide take-away or take-out food in addition to tables for eating-in. A drive-through allows food to be ordered and delivered without leaving the car to further speed service.

Fast food is often finger food that can be eaten quickly and without cutlery. Fast food often consists of fish and chips, sandwiches, pitas, hamburgers, breaded chicken, French fries, chicken nuggets, pizza or ice cream, although many fast food restaurants offer some other less easily consumed choices like chili, mashed potatoes, or salads. Chinese cuisine, although often served as take-away, is not always considered fast food. (http://encyclopedia.thefreedictionary.com/Fast-food%20restaurant)

Examples:

- Arby's http://www.arbys.com
- Blimpie
- Burger King
- Chick-fil-A http://www.chickfila.com
- Dairy Queen (Brazier)
- El Pollo Loco http://www.elpolloloco.com/
- Jack in the Box
- KFC
- Krystal http://www.krystalco.com/
- Little Caesar's
- Long John Silver's
- McDonald's
- Panda Express http://www.pandaexpress.com/
- Pizza Hut
- Popeye's Fried Chicken http://www.popeyes.com/
- Quizno's
- Sbarro
- Schlotzsky's http://www.cooldeli.com/
- Sonic Drive-In http://www.sonicdrivein.com/
- Steak and Shake
- Subway Sandwich
- Taco Bell
- Tastee Freeze
- Wendy's
- Whataburger

4. **Specialty Shops category**
   a. **Coffee/Pastry** - This category includes restaurants where coffee and/or pastries are the main items sold.

   Examples:
<table>
<thead>
<tr>
<th>Category</th>
<th>Restaurants</th>
</tr>
</thead>
<tbody>
<tr>
<td>Coffee</td>
<td>Caribou Coffee, Dunkin’ Donuts, Krispy Kreme, Seattle’s Best Coffee, Starbucks</td>
</tr>
<tr>
<td>Ice Cream</td>
<td>Baskin Robbins, Cold Stone Creamery, Planet Smoothie, Smoothie King, TCBY</td>
</tr>
</tbody>
</table>

5. **Other category** – All other restaurants; we think that we captured all restaurant establishments, but in case we overlooked one, please use this category!
Record the following at the top of all pages of the form:

- Restaurant ID
- Today’s date
- Rater ID

TYPE OF RESTAURANT:

1) Type of Restaurant: Code #

1. Record code from Restaurant Code List for type of restaurant, basing it on the main category of cuisine served (e.g., if it is a Chinese vegetarian restaurant, code it as Chinese, not Vegetarian).
## NEMS Restaurant Code List

<table>
<thead>
<tr>
<th>Code #</th>

</table>
2. Record all the data sources that you use in completing the data collection form for this restaurant. If you fill in "no" for any of the data sources, leave the corresponding data source in Items #3-6 blank and note the reason in comments. For example, if you are not able to complete the site visit for whatever reason, leave Item #3 (Site Visit) blank and note the reason (e.g., manager refused).

SITE FEATURES AND INFORMATION:

3. Site Visit Information: Record whether you were able to obtain a take-away menu and/or nutrition information during your site visit. If the site visit includes other nutrition-environment relevant information (e.g., a healthy eating brochure), mark “yes” next to “Other” and describe in comments.

4. Take-Away Menu Features: Record whether the take-away menu includes nutrition information or identification of healthier menu items. If the menu includes other nutrition-environment relevant information (e.g., a statement encouraging healthy eating), mark “yes” next to “Other” and describe in comments.

5. Internet Site Features: Record what type of information you found on the Internet about this restaurant. Also record the Web address (URL) or addresses where you found the information. If the website includes other nutrition-environment relevant information (e.g., a nutrition calculator), mark “yes” next to “Other” and describe in comments.

6. Interview Information: Record whether you used a formal sit-down interview to obtain menu options, pricing, or other information that you could not get from the other data sources. Asking wait staff a few questions is not considered an interview.
**HOURS OF OPERATION:**

<table>
<thead>
<tr>
<th>7) Hours of Operation:</th>
<th>Data Source(s): ○ Site ○ Menu ○ Web</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Sunday</strong> ○ Open ○ Closed</td>
<td>○ Site ○ Menu ○ Web</td>
</tr>
<tr>
<td>○ B: 6:00 – 11:00 am</td>
<td>○ B: 6:00 – 11:00 am</td>
</tr>
<tr>
<td>○ L: 11:00 am – 3:00 pm</td>
<td>○ L: 11:00 am – 3:00 pm</td>
</tr>
<tr>
<td>○ D: 5:00 pm to Close</td>
<td>○ D: 5:00 pm to Close</td>
</tr>
<tr>
<td>☐:☐:☐ ○ AM ○ PM</td>
<td>☐:☐:☐ ○ AM ○ PM</td>
</tr>
<tr>
<td>○ Open 24 Hours</td>
<td>○ Open 24 Hours</td>
</tr>
</tbody>
</table>

7. Hours of Operation

**Note:** The hours listed beside breakfast (B), lunch (L), and dinner (D) are approximate times. For example, for a restaurant that is open 10:30 am – 10:00 pm, mark L (Lunch) and D (Dinner), or even if the restaurant opens at 7:00 am instead of 6:00, mark B (Breakfast).

During the site visit (or from another data source), record the following:

- Data source(s)
- Is the restaurant open or closed on the days indicated?
- If so, record whether it is open for breakfast (B), lunch (L), and/or dinner (D). If it serves brunch, mark as breakfast and lunch.
- Record the latest hour open, and mark am or pm.
- If the restaurant is open 24 hours, leave the rest of Section 7 blank.

**ACCESS:**

<table>
<thead>
<tr>
<th>8) Access: Drive-thru window</th>
<th>Parking onsite</th>
</tr>
</thead>
<tbody>
<tr>
<td>○ yes ○ no</td>
<td>○ yes ○ no</td>
</tr>
</tbody>
</table>

8. Access

- Record whether there is a drive-thru window. If the restaurant offers the option of sitting in your car and a server comes out to take your order or bring you your food (e.g., such as Ruby Tuesday’s), this is NOT considered a drive-thru. Just note this in comments.

- Parking onsite
  - Mark YES, if parking is available in a parking lot or structure/parking deck associated with the restaurant.
  - It does not matter if the parking is paid, free, valet, or self-park.
  - If there is only street parking (free or metered), answer NO to parking, as that is not associated with the restaurant.
SIZE OF RESTAURANT:

9) Size of Restaurant:
   ○ Seating capacity = ________  OR  ○ Number of tables = ________
   Comments:__________________________________________________

9. Size of Restaurant
   ■ Record the seating capacity (from the fire department sign on the wall), or count the number of tables of any size, if you do not see the sign. Count both exterior and interior tables. Count the counter seating as one table and note the number of counter seats in comments.
     • Note: If you use the seating capacity from the fire department sign, you will still need to count any exterior tables and note it in comments.
   ■ If the restaurant is in a food court and has no tables, fill in seating capacity = 0 and note in comments that the restaurant is in a food court. If the restaurant has its own tables, list the seating capacity, or count the tables and note in comments that there are also tables in the food court.
10. **Salad Bar**

10) Restaurant has a salad bar  
- ○ yes  
- ○ no

- Record whether the restaurant has a salad bar.

11. **Signage/Promotions**

11) Signage/Promotions

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Is nutrition information posted near point-of-purchase, or available in a brochure?</td>
<td>○ yes</td>
<td>○ no</td>
</tr>
<tr>
<td>b. Do signs/table tents/displays highlight healthy menu options?</td>
<td>○ yes</td>
<td>○ no</td>
</tr>
<tr>
<td>c. Do signs/table tents/displays encourage healthy eating?</td>
<td>○ yes</td>
<td>○ no</td>
</tr>
<tr>
<td>d. Do signs/table tents/displays encourage unhealthy eating?</td>
<td>○ yes</td>
<td>○ no</td>
</tr>
<tr>
<td>e. Do signs/table tents/displays encourage overeating (all-you-can-eat, super-size, jumbo, grande, supreme, king size, feast descriptors on menu or signage)?</td>
<td>○ yes</td>
<td>○ no</td>
</tr>
<tr>
<td>f. Does this restaurant have a low-carb promotion?</td>
<td>○ yes</td>
<td>○ no</td>
</tr>
<tr>
<td>g. Other?  ___________________________</td>
<td>○ yes</td>
<td>○ no</td>
</tr>
</tbody>
</table>

Record the following and describe the signage in comments. Please note that signage can be inside or outside the restaurant.

a. **Nutrition information near point of purchase**
   - Is nutrition information posted near point-of-purchase, or available in a brochure that is prominently displayed?

b. **Signs/table tents/displays highlight healthy menu options**
   - Signage may relate to nutritional value/type of food (grilled food, salads)
     - Example: “Try a low-fat option—We feature salads made with fat-free dressing”
     - Example: “Eat healthy: Try our Brown Rice”

c. **Signs/table tents/displays encourage healthy eating**
- Signage that encourages making healthy choices
  - Example: “Here’s to Eating Well”
  - Example: “Fruits and Vegetables—the Smart Choice!”

d. Signs/table tents/displays encourage unhealthy eating
  - It can be related to nutritional value/type of food (promoting rich desserts and fried foods) or price (combo discounts)
    - Example: “Try our cheesecake: Rich & creamy”
    - Example: Posters featuring pictures of high-fat foods
    - Example: Promotional signs or posters pushing combo discounts

e. Signs/table tents/displays encourage overeating
  - Related to quantity
    - Examples: All-you-can-eat, super-size, jumbo, grande, supreme, king size, feast descriptors

f. Low-carb promotion
  - Is restaurant promoting low-carb menu items?
    - Example: “The Low Carb Option”
    - Example: Low-Carb Chopped Steak

g. Other
  - Note any other signage or displays that would influence food purchasing. If nothing to note, mark no.
Items 12-15 are under the header Menu Review/Site Visit, because sometimes they are not listed on the menu and you may need to ask wait staff if they are available.

12. CHIPS

- 12a. Chips
  - Yes
  - No
- 12b. Baked chips
  - Yes
  - No

- Record whether chips (fried) and baked chips are available (yes/no).
- Note: Baked chips must have ≤ 3 grams fat/serving. Baked Lays® and Baked Tostitos® meet this criterion; however, Baked Doritos® do not.

13. WHOLE GRAIN BREAD

- 13a. Bread
  - Yes
  - No
- 13b. 100% Whole wheat or whole grain bread
  - Yes
  - No

- Record whether regular (enriched flour) and 100% whole wheat or whole grain bread are available (yes/no).

14. 100% FRUIT JUICE

- 14. 100% fruit juice
  - Yes
  - No

- Record whether 100% fruit juice is available (yes/no).

15. 1% LOW-FAT, SKIM OR NON-FAT MILK

- 15. 1% low-fat, skim, or non-fat milk
  - Yes
  - No

- Record whether low-fat (1% or ½ %), skim or non-fat milk is available (yes/no). Flavored milk (e.g., chocolate) does not count.
### MENU REVIEW (#16-21)

#### 16. MAIN DISHES/ENTREES:

<table>
<thead>
<tr>
<th>16) Main Dishes/Entrees:</th>
<th>○ yes</th>
<th>○ no</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Total # Main Dishes/Entrees.</td>
<td>#</td>
<td></td>
</tr>
<tr>
<td>b. Healthy options</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**16a. Total number of main dishes/entrees**
- Count the total number of main dishes and entrees on the menu. Include any entrees that are listed as specials that do not appear on the menu. If there are both lunch and dinner menu items listed on the same menu, do **not** count the entrees listed as “Lunch” items. Do not include main dish salads.

Use the following guidelines:
- General rule of thumb: If an item is listed as a separate entrée, count it. Do not think too hard about it.

**Definition of an entrée**—
- It must be distinctly different, either in ingredients, proportion of ingredients, or preparation method **and**
- Differ in ways **OTHER THAN JUST SIZE/QUANTITY**

- An example of different proportion of ingredients: A cheeseburger and a double cheeseburger have proportionately different ingredients, making one higher in percent fat than the other. Proportionally, a double cheeseburger is higher in percent fat than a cheeseburger, because it has a smaller percentage of bread, lettuce and tomato (lower fat ingredients) than meat and cheese (higher fat and saturated fat ingredients). Thus, these would be two separate entrees.

- Count each type of entrée only once. If the entrée is offered in different sizes or in combination with another food, count it only once.
  - Example: Baby Back Ribs (*Count as one entrée*)
  - ½ Rack Baby Back Ribs
  - Example: FAJITAS (*Count as 2 entrees, not 4*)
    - Steak: Seasoned Steak Grilled to Perfection
    - Chicken: Grill and Marinated Chicken Breast
    - Combo: Grilled and Marinated Chicken Breast with Seasoned Steak
    - Double: Your Choice of Chicken, Steak, or as a Combo

- If the entrée is listed with an option of “chicken or beef” or similar choices, count each item as a separate entrée.
  - Example: Curries: Choice of Chicken, Beef, or Pork (*Count as 12 entrees, not 4*)
- Panang
- Massaman
- Red Curry
- Pineapple Curry

- If entrees are listed together in a section, but are distinctly different, count each one as an entrée.
  - Example: *(Count as 5 entrees, not 1)*
    - Blimpies Hot Subs—Grilled
      - 6 In: $3.99  6 In: Stacker: $5.19  12 In: $6.29
      - Buffalo Chicken
      - Ultimate Club
      - Beef, Turkey & Cheddar
      - Pastrami Special
      - Reuben

- If various preparation options, e.g., broiled, fried, or grilled, are available, count each preparation option as an entrée.
  - Example: Farm-raised Catfish, grilled or breaded and pan-fried *(Count as 2 entrées, not 1)*

- If the same entrée is prepared with different sauces, count them as different entrées.
  - Example: A dozen hot wings offered in BBQ, Honey Mustard or Lemon Pepper *(count as 3 entrées, not 1)*
  - Example: Spaghetti with marinara sauce, meat sauce or Alfredo sauce *(count as 3 entrées, not 1)*

- If an entrée is listed twice in separate sections of the menu, count it twice.

- Soup is counted as an entrée if it is priced similar to other entrees.

- **Do not** count the following as main dishes:
  - Sushi
  - Dim Sum
  - Tapas

- If a restaurant serves brunch items and there is no separate dinner menu, or if breakfast items are offered all day, count them as entrees.

- Count “build your own” as one item.
  - Example: Build your own omelet (with choice of ingredients) *(Count as 1 entrée)*
• Example: Build your own pizza (*Count as 1 entrée*)

- If the restaurant features a buffet or smorgasbord for one price, count as one entrée. Note this in comments.

**16b. Healthy options**

If healthy symbols or notations (e.g., *light fare, light, heart healthy, healthy*) are next to entrees, mark “yes”, or if calorie and fat information are provided and meet the NEMS nutrition criteria of healthy, mark “yes” and write in the number. Listed below are the steps to count whether the options meet the NEMS definition of “healthy”. If no entrees have a healthy symbol, notation, or meet the NEMS nutrition criteria of healthy, mark “no”.

If nutrition information is available:

1. Count the number of **entrees (except burgers and sandwiches)** that meet **all three** of the following criteria:
   a) ≤ 800 calories
   b) ≤ 30% of calories from fat (see % Fat Chart)
   c) If saturated fat data are available, then check to see if the items that meet the total fat criterion also have ≤ 10% of calories from saturated fat (see % Fat Chart).

2. Count the number of a la carte **burgers and sandwiches** that meet **all three** of the following criteria:
   a) ≤ 650 calories
   b) ≤ 30% of calories from fat (see % Fat Chart)
   c) If saturated fat data are available, then check to see if the items that meet the total fat criterion also have ≤ 10% of calories from saturated fat (see % Fat Chart).

3. Add the numbers of entrees, burgers, sandwiches meeting the criteria and record in **#16b** on data collection form.

4. If a menu does not have any healthy options, write “0” in the # box.

If nutrition information is not available:

Record the number of entrees identified as “**light fare,**” “**light,**” “**heart healthy,**” “**healthy,**” sometimes designated with a small heart symbol. If a menu does not have any healthy options, write “0” in the # box.
Count entrees and main dish salads with the following maximum amounts of calories and total fat (30% calories from fat) as healthful choices. Look at the nutritional information listed by each entrée. Find where each entrée falls in the calorie range listed. Then, see if the grams of fat given for that range are equal to or less than the fat content of the entrée. If the fat grams in the entrée are greater than the chart, it is not counted as a healthy option.

<table>
<thead>
<tr>
<th>Calories</th>
<th>≤ grams of fat</th>
</tr>
</thead>
<tbody>
<tr>
<td>≤ 179</td>
<td>5 grams</td>
</tr>
<tr>
<td>180 – 209</td>
<td>6 grams</td>
</tr>
<tr>
<td>210 – 239</td>
<td>7 grams</td>
</tr>
<tr>
<td>240 – 269</td>
<td>8 grams</td>
</tr>
<tr>
<td>270 – 299</td>
<td>9 grams</td>
</tr>
<tr>
<td>300 – 329</td>
<td>10 grams</td>
</tr>
<tr>
<td>330 – 359</td>
<td>11 grams</td>
</tr>
<tr>
<td>360 – 389</td>
<td>12 grams</td>

17. MAIN DISH SALADS

17) Main dish salads:
   a. Total # Main dish salads
      ○ yes #
      ○ no
   b. Healthy options
      ○ yes #
      ○ no
   c. Low-fat or fat free salad dressings
      ○ yes #
      ○ no

17a. Total #Main dish salads
Record the total number of main dish salads of any kind listed on the menu and mark “yes.” See definition of main dish salad below. If there are no main dish salads on the menu, mark “no” and write “0” in the # box.

- Definition of a Main Dish Salad:
  A main dish salad is of sufficient size to be the central part of a meal (or a meal in itself) and typically contains at least one protein source as an integral ingredient (see list for examples).

- Do not count salads that are listed under the following sections of the menu or that are clearly smaller in size than the main dish salads (e.g., their price is half of the average main dish salad price):
  - Appetizers
  - Side items, side orders, or sides
  - Extras

- Do not count salads that are indicated for sharing, as is typical in an Italian restaurant.

- Greek or Mediterranean salads should be counted as a main dish salad, if they meet the size/price criterion.

- If in doubt about the ingredients, and the price is similar to other main dishes on the menu, count it as a main dish salad.

- Do not count the following salads as a main dish, unless they have a high-protein ingredient (see Protein Sources below).
  - Pasta salad
  - Caesar salad
  - House salad
Protein Sources

- Tofu
- Chicken or turkey (poultry)
- Fish or seafood
- Beef or pork (do not count bacon as a protein source)
- Vegetarian chili
- Pinto beans, soybeans, chickpeas (or hummus) or other legumes
- Egg (unless used only as a garnish)

17b. Main dish salads: Healthy options
If calorie and fat information are provided and a salad meets the NEMS nutrition criteria of healthy or a healthy symbol or notation (e.g., light fare, light, heart healthy, healthy) are provided, mark “yes”. Follow the steps below to count how many salads are healthy options. If not, follow the steps below to count whether the main dish salads meet the NEMS definition of “healthy” based on when nutrition information isn’t available. If none meet the NEMS nutrition criteria with or without the nutrition information available and no healthy symbols are provided, then mark “no”.

If nutrition information is available:
1. Record the number of main dish salads that meet all three of the following criteria:
   a) $\leq 800$ calories
   b) $\leq 30\%$ of calories from fat (see % Fat Chart)
   c) If saturated fat data are available, then check to see if the items that meet the total fat criterion also have $\leq 10\%$ of calories from saturated fat (see % Fat Chart).
2. If there are none that meet the criteria, write a “0” in the # box

If nutrition information is not available:
1. Record the number of main dish salads with $\leq$ two high-fat ingredients (see Supplementary Information below for list).
2. If there is no low-fat or fat-free dressing available, then the salads cannot be counted as healthy options.
3. If there are none that meet the criteria, or if the salad ingredients are not listed, write a “0” in the # box.
## Supplementary Information: Main Dish Salads

**Note:** If a salad comes dressed, it cannot be counted as healthful, unless low-fat or fat-free dressing is an option on the menu (included in separate list of dressings).

<table>
<thead>
<tr>

<td>▪ Salad in a fried shell (e.g., taco salad)</td>
</tr>
</tbody>
</table>

### 17c. Main dish salads: Low-fat or fat free salad dressings

Record whether the restaurant has low-fat or fat free salad dressings. If yes, record how many there are. If none, mark “no” and write “0” in the # box. If nutrition information is available, check to see if any dressings qualify using the fat chart. Some do but may not be labeled as low-fat or fat free.
18. FRUIT

18) Fruit (w/out added sugar)

- Record the number of fruit side dishes without added sugar (see Supplementary Information for guidance) and mark “yes”.
  - If the menu lists a fruit cup, ask if it is fresh.
- If there are no fruit side dishes without added sugar, mark “no” and write “0” in the # box.
- Again, if there is nutrition information, check to make sure that fruit qualifies as sometimes there may be added sugar not noted on the menu.

### Supplementary Information: Fruits Without Added Sugar

<table>

<tr>
<td>Fresh fruit plate with cottage cheese</td>
<td></td>
</tr>
<tr>
<td>Fresh fruit on the salad bar</td>
<td></td>
</tr>
</tbody>
</table>

19. NON-FRIED VEGETABLES (without added sauce)

### Menu Review

- Look for any vegetables separately listed as “sides” or “extras” and see if they meet the NEMS criteria of non-fried vegetables without added sauce. If there is any indication of a sauce (e.g., steamed broccoli with a buttery sauce), it does not count. Also, if vegetables are listed “separately” and not as part of an entrée (i.e., you have a choice of vegetables that are grouped below or above the entrée), these can be counted, if they are healthy. Salad listed as a side when the restaurant has low-fat or fat free dressings counts. Again, if there is nutrition information available for the sides, make sure that the vegetable qualifies. For example, it might say “Steamed broccoli” but the nutrition information states 80 calories with 6 grams of fat which would mean that this item would not qualify as a non-fried vegetable.
Record the number of non-fried vegetables (also without sauce or breading) and mark “yes”. (See Supplementary Information for guidance.)

If there are no vegetables that meet the criteria, mark “no” and write “0” in the # box.

**Supplementary Information: Non-fried Vegetables Without Added Sauce**

<table>
<thead>
<tr>

</table>

**20. DIET SODA**

<table>
<thead>
<tr>
<th>20) Diet Soda</th>
<th>○ yes</th>
<th>○ no</th>
</tr>
</thead>
</table>

Record whether the restaurant offers diet soda (<5 calories per serving is considered calorie free).
21. OTHER HEALTHY OR LOW CALORIE BEVERAGE

21) Other healthy or low calorie beverage?  

- Record whether the restaurant offers any additional healthy or low calorie beverage. A low calorie beverage is considered any beverage with \( \leq 40 \) calories per stated serving.
  - Examples: a low calorie drink that is not a soft drink like lemonade sweetened with splenda or nutrasweet, diet Snapple, low-cal Sobe, unsweetened iced tea, bottled/flavored water, Perrier.

22. FACILITATORS AND SUPPORTS

(Note: Always assess the following on the menu, if available, even if you have reviewed the Web site.)

22) Facilitators & Supports

a. Nutrition information on menu (paper or posted menu)  
   - Nutrition information must be listed for more than one item and also include as a minimum: **Calories and total fat**

b. Healthy entrees identified on menu
   - Entrees must be in a separate section identified as healthier choices or have a symbol with a footnote describing them as a healthier choice.
   - **Do not** include low-carb or vegetarian notations.

c. Reduced-size portions offered on menu
   - Does the menu offer reduced-size portions, e.g., half-order vs. full-order?
     - Example: Taco Heap............... $6.79/$4.25 half
     - If multiple-size options are a **standard** part of the menu, mark “standard”.
     - Example: Small vs. large pizza, 6” vs. 12” sub, 6 pc vs. 12 pc fried chicken, regular vs. large burger
   - If 22c is “No”, OR “Standard” then mark 24d “N/A”.

04/01/2010
d. Encourage healthy requests
   ■ Do menu notations encourage healthy requests and indicate that it would make the selection a healthier choice?
      ▪ Example: Under the “Low-Fat Meals” section, the menu says, “Ask your server for Fat-free Ranch Dressing for salads.”
      ▪ Example: Menu says, “A lighter quantity of rice or beans is no problem—just ask!”
      ▪ Example: Menu says, “Our sandwiches are topped with lettuce, tomato and cheese. For a lower-fat option, ask for lettuce and tomato only.”

e. Other
   ■ Note any other facilitators and supports on the menu. If nothing to note, mark no.

23. BARRIERS

<table>
<thead>
<tr>
<th>23) Barriers</th>
<th>Select One</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Large portion sizes encouraged?</td>
<td>○ yes ○ no</td>
<td></td>
</tr>
<tr>
<td>Super-sized items on menu</td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Menu notations that discourage special requests (e.g., No substitutions or charge for substitutions)</td>
<td>○ yes ○ no</td>
<td></td>
</tr>
<tr>
<td>c. All-you-can-eat or “unlimited trips”</td>
<td>○ yes ○ no</td>
<td></td>
</tr>
<tr>
<td>d. Other? ___________</td>
<td>○ yes ○ no</td>
<td></td>
</tr>
</tbody>
</table>

a. Large portion size encouraged?
   ■ Does the restaurant promote large portion sizes on the menu?
      ▪ Example: Super-sized items
      ▪ Example: Giant spuds
      ▪ Example: Colossal burger
      ▪ Example: The Heap (“A heap of…”)

b. Discourage special requests
   ■ Do menu notations discourage special requests
      ▪ Example: “No substitutions”
      ▪ Example: “Extra charge for substitutions”
c. All-You-Can-Eat or Unlimited Trips
- Example: All-you-can-eat buffet
- Example: “We keep bringing the food until you say ‘stop’”
- Does not include beverages, unless it is a milkshake or ice-cream drink and also does not include a salad bar which was already noted in question 10.

d. Other barriers
- Record other barriers not previously noted and describe in comments. If nothing to note, mark no.
  - Example: free refills on bread or French fries

24. PRICING

<table>
<thead>
<tr>
<th>24) Pricing</th>
<th>Select One</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Sum of individual items compared to combo meal</td>
<td>○ more ○ less ○ same ○ NA</td>
<td></td>
</tr>
<tr>
<td>b. Healthy entrées compared to regular ones</td>
<td>○ more ○ less ○ same ○ NA</td>
<td></td>
</tr>
<tr>
<td>c. Charge for shared entrée?</td>
<td>○ yes ○ no</td>
<td></td>
</tr>
<tr>
<td>d. Smaller portion compared to regular portion</td>
<td>○ more ○ less ○ same ○ NA</td>
<td></td>
</tr>
<tr>
<td>e. Other? ___________________________</td>
<td>○ more ○ less ○ same ○ NA</td>
<td></td>
</tr>
</tbody>
</table>

a. Combo meals
- Identify if combo meals are more, the same, or less than purchasing individual items.
  - **Definition of Combo Meal**
    - A combo meal combines several menu items that would otherwise be sold separately.
    - It is not an entrée with side dish(es), but separate items with separate prices, put together as a "combo".
    - It may include a drink but not necessarily.
    - It does not matter if they offer diet drinks (since all McDonald's, Burger King, etc., do this also).
  - Example: Burger + fries + soda as a combo, vs. burger + fries + soda separately

b. Healthy entrees compared to regular
- Identify if healthy meal options are more expensive, the same, or less than regular meal options.
  - Based on the healthy meal options you identified in Items #16b and #17b, are similar menu items more expensive, the same, or less expensive?
• If there are no healthy items, mark NA.
• If you will need to return to the office to figure out which items are healthy options based on the fat chart and nutrition information, note the prices for the items you think might be the healthy options and their comparisons. An example would be if there was a grilled chicken sandwich and a fried chicken sandwich on the menu. Answer 24b once you have determined if it is a healthy option.

c. Extra charge for shared entrée
   ▪ Example: Notation on menu-- “$1.50 plate charge for shared entrée”

d. Smaller portion pricing
   ▪ Is a smaller portion more, the same price, or less than a regular portion?

e. Other
   ▪ Note any additional pricing incentives that encourage overeating or healthy eating and describe in comments. If none, mark NA.

25. Kid’s Menu
In general, stick to the kid’s menu as the source of information for answering questions about the kid’s menu. However, if not specifically stated on the kid’s menu or if referred by the kid’s menu to the full menu (e.g., can substitute any other side, but no sides are listed on the kid’s menu), look on the full menu for:
   1) 1% lowfat, skim or non-fat milk and 100% juice availability,
   2) whether refills are free on unhealthy drinks, and
   3) if there are healthy sides.

If any information is obtained from the full menu to answer a kid’s menu question, please note “from full menu” in comments.

<table>
<thead>
<tr>
<th>Menu Options</th>
<th>Select One</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>25) Kid’s menu?</td>
<td>○ yes ○ no</td>
<td></td>
</tr>
<tr>
<td>a. Age limit</td>
<td>○ 10 and under ○ 12 and under ○ Other ○ NA</td>
<td></td>
</tr>
<tr>
<td>b. Any healthy entrees?</td>
<td>○ yes ○ no ○ NA</td>
<td></td>
</tr>
</tbody>
</table>

25. Kid’s menu
   ▪ Determine whether there is a kid’s menu and record the information in 25. If there is not a kid’s menu, mark “NA” for items a-m.
a. Age limit

- Record in 25a the age limit listed on the menu by marking 10 and under, 12 and under, or other. If other is marked, write the age limit on the line provided. If an age limit is not stated on the menu, mark other and write whatever is listed on the menu (e.g., “kids of all ages”). If there is no age limit, meaning adults can order from the kid’s menu, mark “NA”.

b. Healthy entrees

- Record in 25b whether the kid’s menu contains healthy entrees for lunch or dinner (e.g., grilled chicken sandwich or pasta with tomato sauce). Do not consider breakfast items. The burden of proof must be on the kid’s menu to identify that an entrée is healthy or prepared in a healthy way.

Use the following guidelines:

- Healthy preparations such as “grilled”, “baked” or “broiled” generally are considered a healthy choice (e.g., grilled chicken).

- Preparations such as “fried” are not considered healthy. Unless otherwise noted, fish and chicken entrees should be considered fried (e.g., chicken fingers or chicken wings).

- Anything with “cheese”, “butter” or a cream sauce as a significant ingredient (e.g., mac ‘n cheese, cheese ravioli, pasta with butter) is not considered healthy.

- Anything with red meat is not considered healthy (e.g., hamburger, taco, hotdog).

- Green salads are considered a healthy entrée regardless of dressing, unless the protein source does not follow the guidelines above. For example, a salad with fried chicken as the protein source is not a healthy entrée.

- Only rate a peanut butter and jelly sandwich as healthy, if it is "modified" to be made with whole wheat bread or all fruit preserves (lower sugar).

- Pizza is not considered healthy.

- Do not automatically consider an item as healthy if it is labeled as “healthy”.

- Do not consider items promoted as low carbohydrates as “healthy” options.
c. 100% fruit juice  ○ yes  ○ no  ○ NA
d. 1% low-fat, skim or non-fat milk  ○ yes  ○ no  ○ NA
e. Are there free refills on unhealthy drinks?  ○ yes  ○ no  ○ NA

c-d. 100% juice and milk
■ Record in 25c and 25d whether the restaurant serves 100% fruit juice and low-fat (1% or ½ %), skim or non-fat milk. Flavored milk does not count.

e. Unhealthy drinks
■ Record in 25e whether there are free refills on unhealthy drinks (e.g., sugared sodas).

f. Are there any healthy side items (either assigned or to choose)?  ○ yes  ○ no  ○ NA
g. Can you substitute a healthy side for an assigned unhealthy one?  ○ yes  ○ no  ○ NA
h. Do any entrees that have assigned sides include an assigned healthy side?  ○ yes  ○ no  ○ NA

f. Healthy sides
■ Record in 25f whether there are healthy side dishes (e.g., rice, salad, beans, low-fat yogurt, cottage cheese, applesauce, etc.).

Use the following guidelines:
■ Fruit or vegetables are considered healthy unless things are added to them to make them unhealthy such as added sugar or butter (see Supplemental information: Fruits without added sugar pg. 21 and Non-Fried Vegetables without added sauce pg. 22). Note that although applesauce does not count as fruit without added sugar for the full menu review, it does count as a healthy side for kids. Raisins would also count as a healthy side.

■ Beans/legumes are considered healthy if they meet the following criteria: 1) Must have nutrition information available; 2) Less than or equal to 30% of calories from fat (see % Fat Chart); and 3) If saturated fat data are available, check to see if the items that meet the total fat criteria also have less than or equal to 10% of calories from saturated fat (see % Fat Chart). These criteria include all varieties of legumes/beans (e.g. kidney, black, lima, pinto) with the exception of green beans/string beans which are considered vegetables.

■ Green salads are considered a healthy side regardless of the dressing.
- Raw vegetables served with dipping sauces or dressing (e.g., carrot sticks with ranch dressing) are considered healthy sides.

- Baked chips are considered healthy.

- Mayonnaise or oil-based sides (e.g., coleslaw, potato salad, etc.) are not considered healthy.

- Other sides where oil or butter is typically added to the preparation are not considered healthy (e.g., garlic bread, mashed potatoes, stuffing or dressing, etc.)

- Sides with cheese as a primary ingredient are not considered healthy (e.g., macaroni casserole).

**g. Healthy side substitutions**

- Record in 25g whether a healthy side item can be substituted for an unhealthy side item (e.g., french fries). An assigned side is one that is designated for a specific entree on the menu (e.g., hamburger with french fries).
- Mark “NA” when no entrees are assigned a specific side.
- Mark “yes” if two or more side options are assigned to a given entree and at least one is healthy.

**h. Assigned sides**

- Record in 25h whether any entrees that have assigned sides include an assigned healthy side (e.g., steamed veggies). An assigned side is one that is designated for a specific entree on the menu (e.g., hamburger with french fries).
- Mark “NA” when no entrees are assigned a specific side.

<table>
<thead>
<tr>
<th>i. Is an unhealthy dessert automatically included in a kid’s meal?</th>
<th>○ yes</th>
<th>○ no</th>
<th>○ NA</th>
</tr>
</thead>
<tbody>
<tr>
<td>j. Are there any healthy desserts (either free or at additional cost)?</td>
<td>○ yes</td>
<td>○ no</td>
<td>○ NA</td>
</tr>
</tbody>
</table>

**i-j. Desserts**

- Record in 25i whether unhealthy desserts are automatically included in a kid’s meal. Unhealthy desserts include ice cream-based desserts (e.g., sundaes, ice cream smoothies, milkshakes) and other sugar-based desserts (e.g., slushees). If a dessert is not specifically listed (e.g., labelled generically as a “special treat”), consider it an unhealthy dessert.

- Record in 25j whether there are healthy desserts available, either free or at additional cost. Healthy desserts are fruit without added sugar or unhealthy topping, fruit with a healthy topping added (e.g., low-fat yogurt), or lowfat frozen yogurt.
<table>
<thead>
<tr>
<th></th>
<th>Question</th>
<th>Answer Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>k.</td>
<td>Is nutrition information (e.g., calories or fat) provided on the kid’s menu?</td>
<td>○ yes ○ no ○ NA</td>

<tr>
<td>l.</td>
<td>Other unhealthful eating promotion?</td>
<td>○ yes ○ no ○ NA</td>
</tr>
<tr>
<td>m.</td>
<td>Other healthful eating promotion?</td>
<td>○ yes ○ no ○ NA</td>
</tr>
</tbody>
</table>

**k. Nutrition information**
- Record in 25k whether nutrition information, which includes either **calories or fat**, is listed on the kid’s menu.

**l. Other unhealthful eating promotion**
- Record in 25l whether there are other unhealthy eating promotions on the kid’s menu other than what you have already noted (e.g., free dessert) and describe in comments.

Use the following guidelines:
- Cheaper price indicated for adding more food than if the additional food was purchased separately (e.g., Chillin’ Fruit Freezers are 99¢ with the purchase of a Pepper Pal meal; $2.29 if purchased separately).
- Specific encouragement to add an unhealthy dessert at an inexpensive price (<$1.50) to the existing meal even when the full price of the dessert is not specified (e.g., Sundae 99¢ with kid’s meal purchase).
- Inexpensive desserts that are not specifically encouraged do **not** count as an unhealthy promotion (e.g., $1.49 sundae is listed under dessert).
- Kids eat free or get a free kids meal with an adult meal purchased is **not** considered an unhealthy promotion.

**m. Other healthful eating promotion**
- Record in 25m whether there are any healthy eating promotions on the kid’s menu and describe in comments (e.g., substitute whole wheat pasta or order the steamed broccoli!).
- Additional costs for healthy additions to meal combinations (e.g., extra juice box for 79¢) would **not** be considered as a healthy promotion.
